2022 «OTT fair share» discussion and 2012 BEREC statement to ITU/WCIT

Frode Sorensen, Norwegian Communications Authority (Nkom)

RIPE 84 meeting, 19 May 2022

2022 – déjà vu 2012

- Regarding Sending Party Network Pays (SPNP)
- Avoid termination monopoly from traditional telephony
- Without content – no demand for bandwidth
- End-users request the content and pay for the transfer of the content
- «This model has enabled a high level of innovation, growth in Internet connectivity, and the development of a vast array of content and applications, to the ultimate benefit of the end user. Attempts to undermine it could put these benefits at risk.»
